TECHNICAL SPECIFICATIONS

Dosing system	4 heads weigher		
Products type	DETERGENT		
Dimension of the machine	Length	Width	Height
	6000 mm	1500 mm	4000 mm
Bag Weight	1 KG – 5 KG		
Accuracy	+/- 1-2 gr		
Production capacity	FOR 5 KG – 20- 35 bag /min The number of packages may vary depending on the package quality and product quality.		
Bags types	Pillow bag 		
Packaging Types	FOLIO ALUMINIUM, OPP+OPP, OPP+PE, METALISEE+PE,		
Dimension of bag	Width	Length	
	32 cm	45 cm	

Dimension of coil	Max 63 cm
Structure and body of the machine	All surfaces in contact with the products are stainless
PLC	XGB – XBC – DN64H - LS COREEN
Numerator	IG5A - LS COREEN
Electrical components	Schneider , WEIDMULLER - Germany
Transformer – regulator	SIEL ELECTRONIC
Motor	BONFIGLIOLI
Redictor – gear	BONFIGLIOLI
Pneumatic Cylinder	SMC
Alimentation – electricity	380 V Triphase - 220 V stable
Power consumption	12 KW - 50 Hz
Air consumption	6 Bar , 500 L / min
