

The **anti flooding** electrovalves **Type 800**

The 800 Series solenoid valves are valves with a water-stop and anti-flooding function, which are mainly used in dishwashers and washing machines for domestic and industrial use.

TECHNICAL DATA

Voltage	12V, 24V, 48V, 110V, 220V 50Hz
Current	AC/DC
Ambient temperature	10 ÷ 60 °C
Water temperature	2 ÷ 75 °C
Working pressure	0,2 ÷ 10 bar
Self-reinstatement pressure	≥ 0,2 bar
Outlet flow regulator Lt/min.	0,25 - 0,35 - 0,5 - 0,6 - 0,8 - 1,2 - 2,5 - 3,75 - 4,5 - 5,5
