

Technical Data**Electrical characteristics**

Feed voltage	380 V
Phases	3
Nominal power (Max. output)	85 KW
Installed power	140 KVA
Nominal frequency	50 Hz
N° generators	2

Mechanical characteristics

Belt width	1750 mm
Belt length	26000 mm
Height upper electrode	230 - 320 mm

Load characteristics

Max. height material	210 - 300 mm
Max. width material	1650 mm
Max. evaporative yield (litres/KW output)	1,2
