

小型裹包机 **Discal packing machine**

概述 Descriptions

小型包装机是一种小型全封闭包裹式的包装设备。适用于各类扁圆形包装物的折叠式包装。包装物按照上料、贴标、包裹、热封、出料顺序完成，整个过程全自动无人化操作。为制造企业最大程度的节省人工成本，提高生产效率。

The disc packaging machine is a fully enclosed package of packaging equipment being suitable for all kinds of folding packaging for flat circular packaging. Wrappage can be finished according to the sequence of loading material, labeling, packaging, encapsulating with heat and unloading material without anybody operating the machine. So it can save cost improve the production efficiency for the enterprise.

设备特点 Features of equipment

★单工位工作，模具少；

Continuous feeding with sixteen working positions.

★动作由气缸完成，结构精简，价格便宜；

Precise cam controls each action to get stable mechanical performance.

★PLC 变频控制，触摸式人机界面，操作调整简便；

PLC frequency converter controlling, man-machine touch screen , easy operation.

★配备印刷膜电眼自动对标装置；

Equipped with auto label correction device for printed film.

技术参数 Technical parameters

包装材料/Packing material	热封型 BOPP 膜/BOPP film of thermo-sealing type
最高包装速度/Max packing speed	45pcs/min
包装规格/Packing spec	50~80mm
包装厚度/Packing thickness	12~25mm
总机功率/Total power	<2KW

袖口式集束包装机 Cuff type packing machine

概述 Descriptions

袖口式集束包装机是一种桶式包装设备。适用于各类扁圆形包装物的集束包装。包装物安装输送、分流、翻转、集束、包裹、热切顺序完成。整个过程全自动无人化操作。为制造企业最大程度的节省人工成本，提高生产效率。

Cuff type bundling packaging machine is a barrel type packing device being applicable to all kinds of flat circular packaging cluster packing. The whole process is fully automatic so that it farthest saves labor cost and improves the production efficiency.

设备特点 Features of equipment

★结构轻巧，集束数量可调，方便调整；

compact structure with convenient adjustment.

★PLC 自动化控制，安全稳定；

PLC automatic control, security and stability.

★缺料自动识别，操作方便；

Automatic identification of material shortage, convenient operation.

★热封刀防粘处理，提高切断热封效果；

Antiseize treatment to the heat sealing cutter to improve the cutting heat sealing effect.

技术参数 Technical parameters

包装材料/Packing material	PVC/PE/POF 热收缩膜 Shrink film
包装形式/Packing type	袖口式/Columned
包装外径规格/Packing spec	50~80mm
单个包装厚度/Packing thickness	12~25mm
最高包装速度/Max packing speed	10pcs/min
气源要求/ Air requirement	>0.5MPa
总机功率/Total power	<2KW
