Price Validity: 30 days

1/ Trade Term: FOB Nansha RMB/PC

2/ Payment term: T/T 40% deposit prepayment and balanced paid before shipment. RMB can not sent from HK only accept paid from abroad RMB account.

3/ Packaging: Standard ocean freight packing

4/ Port of loading: Nansha port in Guangdong Province, China

5/ Destination: TBC

6/ Shipping mark: Lanson

7/ Delivery: in 180 working days after seller received 40% deposit and signed PI

8/ Country of Origin: China

9/ Bank information:

Beneficiary name: Lanson Precision Machinery Co.,Ltd.

Beneficiary bank: GUANGDONG SHUNDE RURAL COMMERCIAL BANK COMPANY LIMITED

Address: 38 Feng Shan Zhong Road, Daliang, Shunde, Guangdong 528300, P.R.C

Swift code: RCCSCNBS

Account No.: 01618000002316

Warranty Policy

1/ Warrantee period for major component parts, fixed platen, moving platen, tail platen and tie bars, are 18 months. Other components are 12 months;

2/ Easily broken parts such as screw, screw tip set and heater bands are not covered by this warranty. We strongly suggest local agent to keep stock of these parts in order to facilitate after sales service;

3/ Use of courier express is subject to spare parts under warranty period which is weight less than 5kgs. For those parts weight more than 5kgs will use alternative delivery method such as cargo shipment or further negotiation between end users and Lanson.

Price listed above is including the following features:

- 1 380V /3ph / 50hz
- 2 Injection unit with Linear guide way, low friction during injection
- 3 Two set of hydraulic core pulling device
- 4 Four set of air blast device
- 5 Ceramic heaters
- 6 Window for monitoring screw rotation
- 7 Double layer barrel cover
- 8 Embedded mechanical safety lock
- 9 Reinforced toggle – Stronger, longer service life
- 10 Oil tank cover with drain, easy oil tank cleaning access and more convenience
- 11 Check valve in Oil lubrication bypass filter –Prevent dirty oil from sucking back
- 12 Socket and wire protection connection
- 13 Protection cover for Linear transducers
- 14 Nozzle cover with window and sensor
- 15 Low pressure mold protection
- 16 Automatic mold height adjustment
- 17 Automatic clamping force adjustment
- 18 Techmation controller system
- 19 Linear transducer for injection, clamping and ejector
- 20 RPM display
- 21 Level pad
- 22 Three color alarm light
- 23 Standard spare parts
- 24 Energy saving servo system
- 25 T slot with tap holes
