

FOSHAN GLOBAL INDUSTRIAL TECHNOLOGIES CO., LTD.

Operation input: keyboard and mouse, Chinese or English interface.

Shape scan: different shape point to point scanning, and then transfer into CAD drawing.

Optimization software: combine and order the cutting size casually, output the best cutting solution and improve cutting efficiency. Manual revise after optimization which improve the cutting utilization rate.

Optimized pressure and speed: According to pattern, straight line, curve line, Incurve and outcurve start point and end point; accelerative section and braking section, it can adjust the most suitable pressure and speed.

Shape database: database is available for different kinds of shape.

Shape optimization: change size, rotate, move and combine smoothly in the database.

Operation interface: Chinese or English interface, support many kinds of language.

Drill position : preposition of drill position.

Cutting head protection: mechanical protection function, avoid the possibility of crash.

Shape cutting: cut straight line and slant line and any shape automatically.

Transfer belt: motor drive belt directly and transfer the cutting glass into breaking machine.

Travel protection: mechanical and electrical double protection, to protect maximum travel protection.

Cutting pressure adjustment: Any cutting pressure adjustment can be adjusted by keyboard directly, no need manual operation.

III-3. FGC-AC-6133 glass breaking machine

FOSHAN GLOBAL INDUSTRIAL TECHNOLOGIES CO., LTD.

3.1 Technical parameter:

Table top size: 6100*3300mm

Table top height: 900±30mm

Quantity of air fan: 2piece

(Independent switch control)

3.2. Main components

Table top surface: fiber and woolen felt

Table top: HDF

Bar : 3pcs horizontal level

1pcs vertical level

Spare Parts list:

Item	Accessories name	Unit	Quantity	Remark
1	Optoelectronic switch	pcs	2	
2	Approach switch	set	2	
3	Imported knife holder(German)	set	6	
4	Copper tool apron	set	2	
5	694 bearing	pcs	4	
6	Loading machine sucker	set	2	
7	Tool kit	set	1	
8	Guid rail	set	1	
9	Operation manual	pcs	1	

Remark: Unloading, electricity and power belong to customer after arrived.
