

convenient to install die cutting rule and adjust pressure, producing clear and beautiful results.

## Paper creasing and die cutting machine

### Detailed data:

Model	ML-1200	ML-1100
Inside chase (mm)	1200×820	1100×800
Max. die cutting size(mm)	1200×820	1100×800
Speed (cuts/min)	23±2	23±2
Max. rule length (m)	≤32	≤30
Power of main motor (kw)	5.5	5.5
Infrared sensor	Imported from Japan	Imported from Japan
Gross weight (kg)	6000	5500
Dimensions (L×W×H) (mm)	2080×2050×1900	2080×1950×1900

### رئیس محترم انجمن سازندگان تجهیزات صنعتی ایران

موضوع: استعلام عدم ساخت داخل ماشین آلات شرکت تبریز کاغذ خان زاده  
با سلام و احترام:

احتراماً، با عنایت به درخواست شرکت تبریز کاغذ خان زاده دارای پروانه بهره برداری شماره ۳۰۳۲۲ تاریخ ۱۳۹۳/۰۶/۱۷ و جواز تاسیس شماره ۶۵۴۷۵ تاریخ ۱۴۰۰/۱۰/۱۳ و به استناد نامه های شماره ۶۰/۹۷۰۰۶ تاریخ ۱۴۰۰/۱۴/۱۸ و شماره ۶۰/۹۹۱۰۶ تاریخ ۱۴۰۰/۰۴/۰۹ مرکز محترم ساخت داخل وزارت صمت مبنی بر نظر انجمن ها و تشکل های تخصصی، خواهشمند است در خصوص ساخت داخل ماشین ۱- برش رول به شیت با کد تعرفه ۸۴۴۱۱۰۰۰، ۲- دایکات اتوماتیک تخت با کد تعرفه ۸۴۴۱۳۰۰۰-۳، دستگاه دایکات دستی با کد تعرفه ۸۴۴۱۳۰۰۰ با مشخصات منسرج پروفرمای شماره PB220824A تاریخ ۲۴/۰۸/۲۰۲۲ و کاتالوگ پیوستی مربوط به شرکت تبریز کاغذ خانزاده اعلام نظر فرمایید تا این اداره کل اقدامات بعدی را بعمل آورد.

## Product Introduction

A servo-driven high speed, high precision and high efficiency sheeter. Capable on wide range of paper, board paper, art paper, kraft paper, etc... Widely used by printing, packaging and paper suppliers.

® 長江機械  
CHEUNG KONG MACHINERY

CHEUNG KONG MACHINERY (HK) LIMITED  
Professional sheeting machineries manufacturer.

PARTIA

Hydraulic shaft-less unwind station

PARTIAL DISPLAY

Multi-disc brake

PARTIAL DISPLAY

High precision single rotary sheet cutter

## TECHNICAL INDICATORS

CHM Type	CHM -1400	CHM -1700	CHM -1900
Cutting Way	Top blade rotary, bottom blade fixed		
Reference weight of cutting paper	60 - 550GSM	60 - 550GSM	60 - 550GSM
Cutting accuracy	±0.5mm	±0.5mm	±0.5mm
Max cutting speed	300sheets/min	300sheets/min	300sheets/min
Max. cutting meter speed	300m/min	300m/min	300m/min
Cutting length range	450 -1650mm	450 -1650mm	450 -1650mm
Max scroll diameter	1800mm	1800mm	1800mm
Stacking height of paperboard	1300mm	1300mm	1300mm
Max. paper-cutting width	1400mm	1700mm	1900mm
Weight	12000kg	13000kg	14000kg
Dimension ( L x W x H )	12158mm*3783mm*2230mm	12158mm*4083mm*2230mm	12158mm*4283mm*2230mm

## Why choose us

CHM, Cheung Kong Machinery (HK) Co., Ltd., the professional sheeting machine manufacturer and the leading paper sheeting solution provider in China.

Since 2004, established in Hong Kong, CHM group keeps forwarding with the idea of insists on a client-centric and innovation. CHM has become the leader of the paper sheeting machinery producer in China.

Owens the highest number of patent in the industrial. We are well-known as the "standard setter". With our solid technological capabilities, we have nurtured numerous professionals in the field. And now having the highest production capabilities in China. Moreover, the international standard after-sales technical team providing state-of-the-art services to our clients, receiving all-rounded recognitions among our Chinese and global clientele.

Nowadays, CHM has become the flagship enterprise in the Chinese sheeting machinery industry and expanding towards the international market.

## ADVANTAGES

- The three factories in Guangdong, Shandong and Jiangsu have a total area of 1,000,000 square meters, becoming the world's second largest sheeting machine manufacturer in terms of production capacity;
- Large production capacity and wide market share;
- The most professional counterparts in the country, with independent research and development ability, is the national Slitter standard setter - we are professional, dedicated and innovative;
- Pursuing the quality of "honesty first" forever;
- We have a professional technical and after-sales service team; we always provide "whole life cycle service" for the equipment; we provide solutions for equipment upgrade and maintenance, paper processing, post press processing, printing industry peripheral equipment, etc. to provide high-quality services for different brands of equipment.

high-quality services for different brands of equipment.

**HONOR**

**More than 110 patents  
have been obtained.**

Our service tenet: "On Time, accurate, satisfactory", promptly responds after receiving the service request. We will send technician to solve any problems within the scope of after-sales service. At the same time, we will install and adjust the machine, make it running in the customer's plant. The operator will be taught how to handle maintenance job and other know-how skills, all this is to make sure the machine can run smoothly and safely.

e will  
erly.

# HL-ML-1100/1200 creasing and die cutter machine

HL-ML-1100/1200 creasing and die cutter machine is an indispensable piece of post press equipment which is widely used for die cutting, and creasing of adhesive stickers, carrier bags, book covers, packing boxes, greeting cards, desk calendars, corrugated cartons, etc. It can effectively cut the desired material into large numbers of the same shape.

Features 1. Our die cut machine is manufactured ...

### **PRODUCT DETAIL**

HL-ML-1100/1200 creasing and die cutter machine is an indispensable piece of post press equipment which is widely used for die cutting, and creasing of adhesive stickers, carrier bags, book covers, packing boxes, greeting cards, desk calendars, corrugated cartons, etc. It can

## Features

1. Our die cut machine is manufactured using high quality material for high strength
2. It adopts a 2-step helical gear mechanism, resulting in stable operation, large cutting force, and low noise.
3. Single disc electromagnetic clutch ensures agile, reliable operation
4. Reasonably designed operational altitude, moving bed with a large open angle
5. Electrical system is designed in accordance with CE standard.
6. Single sheet die cutting, continuous die cutting operations, adjustable delay range
7. Reliable safety system ensures operator safety.

## Advantages

1. Our die cutting machine uses centralized lubrication pump system
2. It adopts world famous brand electrical components
3. Strengthened construction ensures smooth operation and long service life.
4. The adoption of active plate frame makes it
