

Dosing adjustment	Automatical
Motor Standard	Servo system: 3Kw
	Foil feeding: 370W
	Clipping system(Servo): 3Kw
Foil adjustment	Manual
Foil feeding	Electrical
Output pressure	0-10Mpa
Capacity	20-28 pcs/min
Control	PLC
Operation	Touching screen
Input from the ground	1100mm
Input dimension	3inch—quick fitting
Weight	Abt.1100Kg
Dimension	1860mm(L)*1240mm(W)*2000mm(H)

Item	Mode	Unit Price	Note
Automatic Sausage Sealant Filling Machine	ASF25	US\$43800.00 US\$42000.00 <i>(Your favor price)</i>	
			

Technical Description:

- Integrate design for whole machine.
- New structure for heat sealing technology,make it more reliable;
- Sealing track is tidy and well sealed;
- Four filling speed could be choose,non-stop to switch
- Filling driven force:Servo system
- Simple foil fixing and feeding device.
- Special designed for color or size changing,quick & easy;
- “Collar” Style for foil forming.
- Operation: 7” Touching screen;
- Dosing style: Volumetric
- Dosing control: Automatic
- Foil feeding adjust: Manual
- Control: PLC;
- Quick fitting in Designed for user friendly.
- Body materials: SUS304
- Good performance for R clipping;
- Driven by Servo motor;
- Control:PLC;
- Body materials:SUS304
- Automatic Output
- “One-Touch” to reset,easy for operation

Mode	ASF25
Power	P3-380V,50Hz,7Kw
Pnuematic	0.6Mpa
Packaging materials	Plastic & Aluminum Foil
Foil width	Abt. 140-165
Diameter range	Φ42-Φ49
Heating range	0-300℃
Dosing range	0-700ml
