waste copper cable granulator machine is suitable for all kinds of scrap cables, mainly for the cable wire which small wire stripper machine can't process.
Such as scrap car wire,home wire, telephone wire,communication wire and complex cables and so on.

Notice:

Only wet granulator machine BS-05 can use single phase, other granulator machine will must use 3phase(industrial voltage)

D Series Cable Wire Granulator Machine

BS-D10

● Mini granulator separator

Model	BS-D10
Power	20KW
Capacity(KG/H)	100
G.W./N.W.	1100/1000
Size	L2300cm x W1600cm x 2000cm

BS-D20

● Small Recycling Granulator

Model	BS-D20
Power	28KW
Capacity(KG/H)	200
G.W./N.W.	1600/1500
Size	L2700*W1700*H2100

this machine is a small compact size, low price with high purity.

if customer want small capacity with low price, these models are the best choice in dry recycling.

BS-D15

● Mini Recycling Granulator

Model	BS-D15
Power	23KW
Capacity(KG/H)	100
G.W./N.W.	1500/1600
Size	L2250cm x W2000cm x 2000cm

Advantages:

- 1: inlet lower than before
- 2: add 2 air filter
- 3: dust collector bag
- 4: inlet and the copper outlet are separately.
