

HS-DS Series Destacker – Bare Board Loader

Description

This machine is used for loading PCB to the next machine

Features

- PLC program control
- Aluminum structure, heavy bottom design
- Pass-through mode provided
- Only taken 10 seconds to change product line
- User friendly soft touch LED control panel
- Uninterrupted loading
- ESD transporting belt
- Smema compatible

Technical Parameters

Transport Height	910 ± 30mm
Transport Direction	L to R or R to L
Operation	Front Panel
Track Fixed Side	Front Operation
Pcb Thickness	0.8mm ~ 4.0mm
Power	220 VAC / 500VA
Air pressure	5-6 bar / 20 L/m

Model

Model	HS-DS400	HS-DS530
Pcb size (mm)	50*50 ~ 400*400	50*50 ~ 530*500
Machine Size (mm)	505*825*1200	600*920*1200
Weight (kg)	200	250
