Standard Duct

Conductive Duct

### Standard Ducting - Non-Hazardous Locations

Model No.	Description
217205	20cm Diameter, 5m - yellow
217207	20cm Diameter, 7,6m length - yellow
217208	20cm Diameter, 10m length - yellow
217215	30cm Diameter, 5m length - yellow
217217	30cm Diameter, 7,6m length - yellow
217218	30cm Diameter, 10m length - yellow
217225	40cm Diameter, 5m length - yellow
217227	40cm Diameter, 7,6m length - yellow
217228	40cm Diameter, 10m length - yellow

### Conductive Ducting - Hazardous Locations

Model No.	Description
217255	20cm Diameter, 5m length - black
217257	20cm Diameter, 7,6m length - black
217258	20cm Diameter, 10m length - black
217265	30cm Diameter, 5m length - black
217267	30cm Diameter, 7,6m length - black
217268	30cm Diameter, 10m length - black
217275	40cm Diameter, 5m length - black
217277	40cm Diameter, 7,6m length - black
217278	40cm Diameter, 10m length - black

With Ground Wires Attached to Each End of Wire Helix

Custom galvanized duct carrier sizes available

SVH-DC25

920370

### Duct Storage Carrier

Model No.	Description
SVH-DC25	Holds 50 foot of 20cm diameter duct, snap-lock lid, large carry handle
SVH-DC1250	Holds 50 foot of 30cm diameter duct, snap-lock lid, large carry handle,

Keeps duct from getting ripped and solves duct storage problem

### Duct to Duct Connector

Model No.	Description
920370	20cm duct to duct connector
920371	30cm duct to duct connector
920372	40cm duct to duct connector

### Duct to Duct Connector - Conductive

Model No.	Description
920378	20cm conductive duct to duct connector with ground lugs - galvanized steel
SVH1212CND	30cm conductive duct to duct connector with ground lugs - galvanized steel
