

ZF Series BLENDER

- Radial axes and side mixing
- Come in Fully Stainless-Steel Body & Internal Parts
- Short and sufficient mixing
- Drive Motor: Chinese top brand
- Large volume and easy cleaning
- low voltage electrical part: Chinese top brand

Spec	Volume (Lit)	Capacity (Kg/Tank)	Mixing Drive (KW)	Mixing rpm	Rotary Drive (kW)	Mixing Time (Min)	Tank body speed(rpm)	Max.reverse height(mm)
Model								
ZF-500	500	300	1.5	68	2.2	0~30	7	2400
ZF-1000	1000	500	4.0	6	4.0	0~30	7	2790

ACME Series Mill

Powder Coating Grinding Systems

ACM Series

E – Type & D - Type

Spec	Typical Max Output (Kg/Hr)	Main Drive (KW)	Blower Flow (M ³ /min)	Blower Drive (Kw)	Classifier Drive power (Kw)	Feeding drive power (Kw)	Overall Dimension (MM)
ACM-10		5.5	15	5.5	1.1	0.55	
ACM-15	150-200	11	40	11	2.2	0.55	6500X1300X3800
ACME-20	200-300	15	45	15	2.2	0.55	7500X1800X3800
ACM-30	400-500	22	60	22	3	0.55	8000X2000X3800
ACM-40	600-800	30	70	30	4	0.55	9000X2500X4500

Note: Atex Standard Not included.

Note: According to EU regulation, ATEX standard is necessary. It is highly recommended to equip the mill by Atex standard component.

Important Notices:

ATEX Standard Not included. According to EU regulation, ATEX standard is necessary. Yuanli has no any responsibilities If these mills are being used without these components by end users.

ACM Series Mill

This component can be installed by Yuanli as per customer request and against the payment.

- **CE & ISO Standard**
- *Very convenient ground type feeding system (Easily matched with cooling conveyor's trolley)*
- **Perfect Particle size distribution**

80%	$30\mu\text{m} \leq \text{PS} \leq 70\mu\text{m}$
3% to 5%	$\text{PS} \leq 10\mu\text{m}$
0%	$\text{PS} \geq 100\mu\text{m}$
- **Max. Waste** $\leq 1.5\%$
- **Online oversized recycling system**

➤ **Dust-Free Packing System.**

- **Ultra-Silent**
- *Total Access to the mill internals. (for easy access and cleaning) Including the area under the rotor, Without the need to remove classifier wheel and rotor disc.*
- *Main Chamber; Casting.*
- *Pneumatic driven cap opener.*
- *Pin material; GCr15*

Very accurate weighing system (For E – Type)

Roller Bank (For D – Type)

Important Notices:

ATEX Standard Not included. According to EU regulation, ATEX standard is necessary. Yuanli has no any responsibilities If these mills are being used without these components by end users.

ACM Series Mill

➤ Heat-exchanger (For E – Type)

➤ Advanced Packing System (Optional)

➤ Ultrasonic Vibrating Sieve (Optional)

➤ Very high efficiency Additive feeder (PPS Type) Optional

Important Notices:

ATEX Standard Not included. According to EU regulation, ATEX standard is necessary. Yuanli has no any responsibilities If these mills are being used without these components by end users.

ACM Series Mill

Description	E-Type	D-Type	
Chinese Brand (Made In China) Electrical Component	--	Included	
European Brand (Made In China) Electrical Component	Included	--	
Ground Type Feeder	Included	Included	
Over-sized recycling system	Included	Included	
Invertor for main drive	Included	--	
Invertor for blower (Fan)	Included	--	
weighing system	Included	--	
Heat-Exchanger	Included	--	
Roller Bank	--	Included	
Standard Spare Parts	Description	Quantity	Quantity
	Pipe clamp	2	2
	Filter bag (Set)	1	1
	Filter bag Spring frame	4	2
	Pulse valve	3	2
	Digital Ammeter	1	1
	PT100	2	1
	Nuts & Bolts	8	8
	Flat belt/V-Belt (Set)	2	1
	Main Chamber Rotor	1	1
	Main Chamber Rotor bearing (Set)	1	--
	Classifier	1	1
	Pins (Set)	2	1
	Teeth Ring	1	--
	Pin Disk	1	--
	Sieve Screen frame	1	--
	Sieve clamp	4	4
Sieve screen	6	4
