TECHNICAL SPECIFICATION & PHOTO---CONE&DOME LINE

Tech specs&photo of Cone making machines

NO	Description& Machine Model & Machine Photo	
1	Feeding system It adopts Siemens touch screen and PLC, Taiwan extended screw, Mitsubishi servo motor and controller, automatic double-sheet detection, automatic waste collection, automatic feeding and feeding. The feeding speed is 120-160 sheets/min	
2	PSP-80T Crane punch press Combined pneumatic friction clutch, Siemens main motor, OMR imported PLC program control, TACO imported Japan double solenoid valve. Punch running speed 150-180 strokes/min	
3	Double S-shape conveyor.

JM31G-125 High precise double lanes night stations punch press.

Combined pneumatic friction clutch, Siemens main motor, OMR imported PLC program control, TACO twin solenoid valve imported from Japan, the actual running speed of multi-station punch is about 280-320 piece/min. Dimensions: 3500×2000×2900
