|               |  |  |  |  |

- (4) 1/2" NPS valves are required, Vendor to confirm size.
- (5) 2-SP-21503 to have Tight Shut Off capability at the quoted design pressure to ANSI/FCI 70-2-2006 Class V.
- (6) No copper or copper bearing alloys to be used
- (7) Equipment to be designed to operate normally at -27 °C.
- (8) End connections to be 1/2" SW.

**REMARKS:**

- 1- Vendor to confirm bearing material.
- 2- The design minimum ambient temperature is -27°C.
- 3- Normal Barometric Pressure is 877.6 mbar(a). Max/Min Barometric Pressure is 881.2 / 851.6 mbar(a) respectively.
- 4- Tight Shut-Off valve.

**REMARKS:**

- 1- Vendor to confirm bearing material.
- 2- The design minimum ambient temperature is -27° C.
- 3- Normal Barometric Pressure is 877.6 mbar(a). Max/Min Barometric Pressure is 881.2 / 851.6 mbar(a) respectively.
- 4- The type is butter fly valve with minimum stop.
