NEW DODO-500H AUTOMATIC AEROSOL CAN BODY MAKING LINE (MAX.400CANS/MIN)

1

This machine composed of auto feeder,vertical/horizontal cutting frame,front/back workbenches,electrical control box,vacuum system,accessory of charging stand,auto blanking stand and knife grinder,ect. It is provided with auto feeding,auto fulfillment of vertical/horizontal cutting,dual-tensioning detection,auto counting,and other functions, featuring easy adjustment,operation and maintenance,safety and reliability,etc. It is able to meet the high-precision cutting requirements for canner plates of various tinned plates with high production efficiency

HIGHT PRECISE AUTOMATIC DUPLEX GANG SLITTER

MODEL	DS-32B
knife numbers	5*8pair (exchanges if need more cutters)
Feeding speed	10-30sheet/min
Linear speed of slitting	59m/min
Range of sheet width	600-1200 mm 600-1200mm
Thickness of Cutting iron sheet	0.15-0.4mm
width of first cut	160-320mm
min width of second cut	71mm
right angle error	≤ ±0.05/100mm
Total unit power	10kw
Vertical sheet magazine	turnoven type
Machine dimensions	6850*3750*1600mm
