# packing machine for Fusen bubble gum

# Packing machine A

- **Main performance:**
- Adopt micro-computer control technique, tracking color mark automatically and accurately.
- Candy packing plate works intermittently, compatible structure and reliable function.
- Lubricate driving device automatically.
- Heat sealing temperature controlled separately, be suitable for different packing material.
- Adjust speed by frequency converter with no interruption.
- Product range: Length: 20-72mm
- Product range: Width: 12-25mm
- Product range: Height: 5-16mm
- Capacity: max 500 pieces/min
- Power: 3.5KW
- Frequency: 50HZ
- Dimension (L\*W\*H): 1320\*1210\*1820mm
- Weight: 1250kg

# Packing machine B

- **Main performance:**
- Adopt micro-computer control technique, tracking color mark automatically and accurately.
- Candy packing plate works intermittently, compatible structure and reliable function.
- Lubricate driving device automatically.
- Heat sealing temperature controlled separately, be suitable for different packing material.
