

JGP-950 Automatic Bottle Loading Turntable

Product features

- 1.JPACKS rotary turntables are manufactured to increase the efficiency of any production line. Our loading or unscrambling turntables transfer single filed bottles onto a conveyor, enabling operators to maximize production capacity. Accumulating turntables remove finished products from the active conveyors and assist in efficient packaging into shipping containers.
- 2.Our standard construction is comprised of a heavy duty 304 stainless steel frame.
- 3.Optional models are available for sanitary, hazardous, flammable and corrosive production lines.
- 4.JPACKS rotary turntables are used in the production of cosmetics, food,beverages,cleaing,specialtychemicals,pharmaceuticals,personal care and more.

Specifications:
