

EMA Proof Loading Machine is designed to work continuously under the site conditions.

Technical featerus are as follows:

## **TENSILE DATA & PERFORMANCE**

Tensile force (max): 1000 KN

Tensile range: 12-40 mm dia rebars

Cycle time for 12mm: 8 seconds (not including loading & unloading)

Cycle time for 40mm: 11 seconds (not including loading & unloading)

## **HYDRAULIC SYSTEM**

Tensile Pressure (max): 8 Mpa Clamping Pressure (max): 15 Mpa

Motor power: 7.5 KW Oil Tank Volume: 160 lt

**Power Supply :** 380 V 3 Phaze 50 Hz **Dimensions :** 1700x1000x1400 mm
